EDUCATION

Galgotias College of Engineering & Technology <i>Bachelor of Technology - Computer Science Engineering-AI & DS:83.3%</i>	Greater Noida Nov 2021 - - July 2025
Mahatma Hansraj Modern School <i>CBSE Class XII: 78.8%</i>	Jhansi,Uttar Pradesh
Sacred Heart Convent School <i>ICSE Class X : 89%</i>	Jhansi,Uttar Pradesh

PROJECTS

Real Time Device Tracking System | *Nodejs, Expressjs,Restful API , OpenStreetMap API*

- Built a real-time tracking system using Express.js and RESTful APIs to dynamically update device locations on an interactive OpenStreetMap interface.
- Designed backend services with CRUD endpoints for managing devices and integrated real-time location updates for seamless user experience.
- Planned future scalability with features like authentication, geofencing, and persistent storage integration.

Spotify Clone | *React,TypeScript,Nodejs,Expressjs,Mongodb*

- Built a full-stack Spotify Clone using microservices architecture with React, TypeScript, Node.js, Express.js, and deployed on Vercel & cloud platforms with auto-deployment for frontend and backend services.
- Implemented user authentication, playlist management, song/album browsing, and admin dashboard, leveraging MongoDB for user data, PostgreSQL for music data, Redis for caching, and Cloudinary for media storage optimization.
- Optimized system performance by integrating Redis-based caching and scalable cloud infrastructure, ensuring seamless streaming and reduced database load.

TECHNICAL SKILLS

Languages: Java,Javascript,HTML,Css,SQL,Python(basic)

Frameworks: Reactjs, Nodejs,Expressjs,

Developer Tools: Git,Github, VS Code,IntelliJ, Eclipse

Database :Mongodb,**MySQL** **Key Courses :**Java, Object Oriented Programming, Data Structures, DBMS, Computer Networks, AI

CERTIFICATIONS

Java Programming: Java Programming by Great Learning Academy

Object Oriented Programming Java:Great Learning Academy

Java Full Stack: Wipro TalentNext

Python :Basic Python by HackerRank
